

# SOFTENA

## RESIDENTIAL SOFTENER

### COMMERCIAL PRESENTATION

While not every family member drinks coffee or shaves, we all take a bath or shower. All Softena softeners feature up-flow regeneration with proportional brining that provides the whole family with soft water at minimal water and salt consumption. Those are suitable for installations where a small depth footprint is required. Thanks to its wifi connection available as an option, users can control the Softena via the Pentair [ConnectMySoftener app](#), whilst pros can have access to the [ConnectMySoftener portal](#).

### DESCRIPTION

Available in 5 different sizes: 11, 15, 20, 26 and 32L and cover a wide range of residential applications.

### PRODUCT FEATURES

- Multilingual, two-line, legible display
- Simplified salt load operation
- Plug and play – pre-set programming to perform at its best
- Exceptionally low rinse water usage per regeneration leads to minimize salt consumption, with up to 40% salt-saving compared to standard softeners. Made possible by upflow regeneration and proportional brining
- Salt alarm
- Integrated handles are convenient for installations where a small depth footprint is required
- Wifi softener connectivity via smartphone app with notifications and alerts on water and salt consumption

### DIMENSIONS

- 11L-15L= 345x574x659
- 20L-26L= 345x574x794
- 32L= 345x574x1079
