SOFTENA
RESIDENTIAL SOFTENER

PENTAIR
WATER SOLUTIONS

COMMERCIAL PRESENTATION

While not every family member drinks coffee or shaves, we all take a bath or shower. All Softena softeners feature high efficiency regeneration with proportional brining that provides the whole family with soft water at minimal water and salt consumption. Those are suitable for installations where a small depth footprint is required. Thanks to its wifi connection available as an option, users can control the Softena via the Pentair ConnectMySoftener app , whilst pros can have access to the ConnectMySoftener portal.

DESCRIPTION

Available in 3 different sizes: 14, 20 and 30L and cover a wide range of residential applications.
